RCS Marine Crane, Red Rock TM Fixed Boom Crane, Standard Type.

RCS cranes are reliable and rigid cranes for general cargo handling and service onboard vessels. Tailor made to your requested specifications, in different boom lengths and lifting capacities for different sea state working conditions. All RCS cranes can be equipped with different accessories and class certified by all leading classification societies.

The cranes are made as self contained unit with integrated hydraulic power pack and motor inside crane king and pedestal. Starter cabinet (IP56) and remote start/stop box (IP 66) are included for mounting in most suitable place close to the crane. Operators' platform mounted on left or right side of pedestal. Slewing gear and winch drum is protected by steel covers as standard.

Standard Equipment

- 360° rotation by means of precise slewing ring
- Working temperature range from -20°C to +40°C
- Precise step less speed control for all motions
- Simultaneous operation of 2 or more functions
- Pedestal ready for welding on vessel's steel structure
- Start/stop box with Emergency stop device
- Stainless steel pipes & nuts
- Levers of spring centered type
- Slew Fail Safe Brakes & Load Holding Valves
- Standard Red Rock Marine Treatment
- Full set of documentation and operation manuals

Available Accessories

- Constant Tension systems
- Certification for lifting of personnel
- Radio or cable remote control systems
- MOPS - Manual Overload Protection System
