

ULMATEC
PYRO

PYRO EXHAUST ECONOMIZER

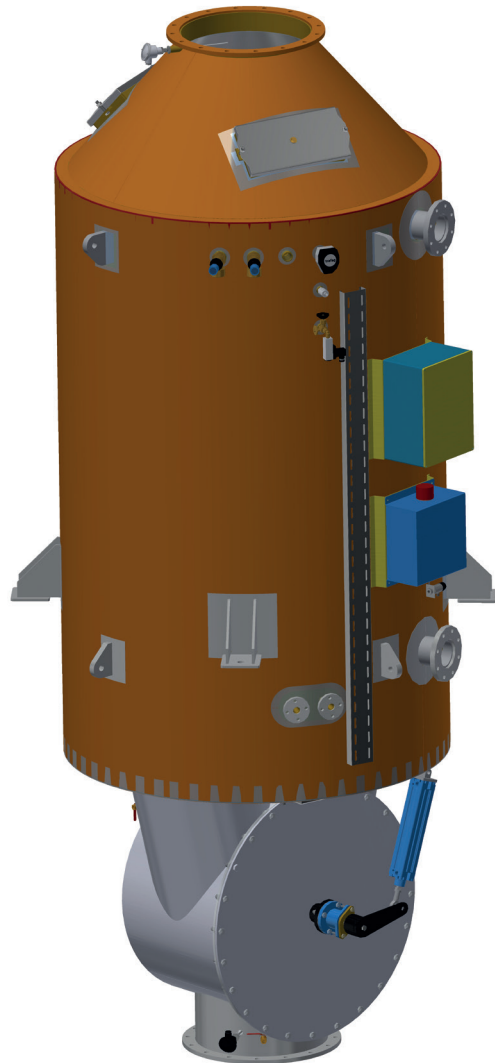

Captures exhaust thermal energy and converts to hot water.

FEATURES

- Automatic control
- Built-in bypass
- Integrated soot cleaning
- Simplicity in design
- Insulated
- Minimized moving parts
- Low back-pressure
- Interface with Ulmatec WERS

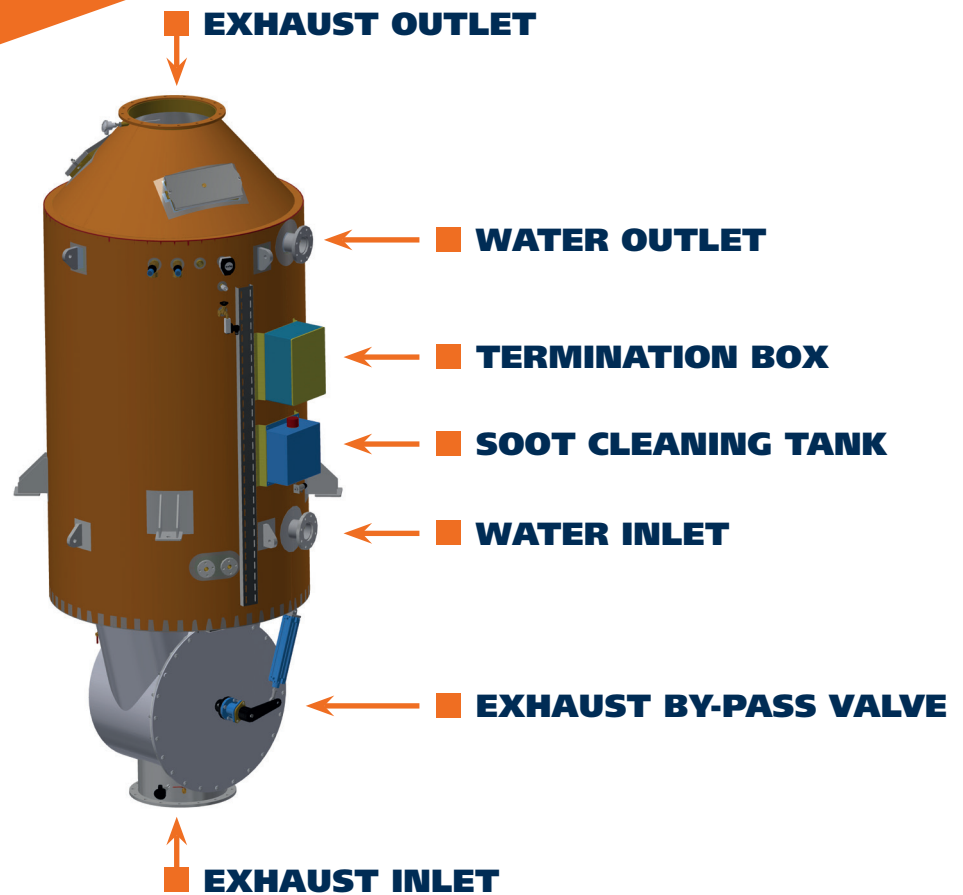

BENEFITS

- Re-use of heat from Exhaust
- Free energy with minimal investments
- High efficiency
- Reduced emissions by fuel savings
- Easy to clean
- Easy to install
- More space efficient
- Low life cycle cost

**ULMATEC
PYRO**

Exhaust Gas Economizer

Design pressure [bar]	6
Working temperature [°C]	95*
Wide standard size range up to DN1200**	
*Adjustable up to 95°C. Working temperature from 95-120°C upon request	
**Size above DN1200 upon request
